 Date

This form is to be used to document the requirements for renewal of ES specialties expiring in 2003. In the near future, we expect to transition to using the national online database for tracking ES qualifications.

Notes:

1. CAPR 60-3 mentions a "continuing education requirement" as a prerequisite for renewal. Since National Headquarters has not published a "continuing education" requirement, it does not have to be documented.
2. CAPR 60-3 mentions completion of CAPT116 as a prerequisite for renewal. Since the CAPT116 has not changed recently, and all currently qualified CAP personnel have completed the current version of the questionnaire, there is no need to document this again.

Reference CAPR 60-3 (May 01, C1 Aug 02) Paragraph 2-4 and Attachment 4.
